

FMN S5500
the coin-operated telephone for ISDN

FMN S5500

the coin-operated telephone for ISDN

With the FMN S5500, you offer your customer a coin-operated telephone with ISDN comfort. It is sturdy enough for clubs, hotels and company canteens as well as for conference centers, petrol stations etc. Briefly said – the FMN S5500 belongs wherever the charges are not supposed to be “on the house“.

All you need for installation of the FMN S5500 is an ISDN basic access with suitable charge information.

- Free choice of tariff; you set the amount per unit and therewith make a profitable investment of your service
- Rugged housing for wall mounting in semi-supervised locations
- Easy programming by the operator

Furthermore, lots of extras like special handling of certain programmable call numbers, electronic coin validation and a lot more.
